Hello,

First, thank you for signing our petition and sharing a testimonial, we appreciate your support and are optimistic that change will soon be coming to our campus.

As part of our campaign, Middlebury Cops off Campus is hoping to make a video using testimonials about students, professors, and community members' experiences. The "Our Middlebury" video project would tell BIPOC stories -- OUR stories-- of experiences with Middlebury Public Safety and/or the Middlebury Police Department where we have felt marginalized by an encounter.

When filling out the form, you indicated that you were interested in helping with Cops off Campus, and we were wondering if you'd be interested in working on this project.

The project has three options for submitting testimonials: creating a personal video, having a member of the Cops off Campus team read the testimonials with identifying information, or having someone from Cops off Campus read the testimonials anonymously.

We'd appreciated your help reading testimonials for folks who decided to do the second and third options. Alternatively, if you'd like to submit a video of your testimonial, you can. Or you can do both!

Please let us know if you're interested in participating.

Best,
Peter Lawrence and Cops off Campus
